

# 2021 Replacement Capital Projects/ Technology Levy

## Orcas Island School District

Our Kids, Our Community, Our Future

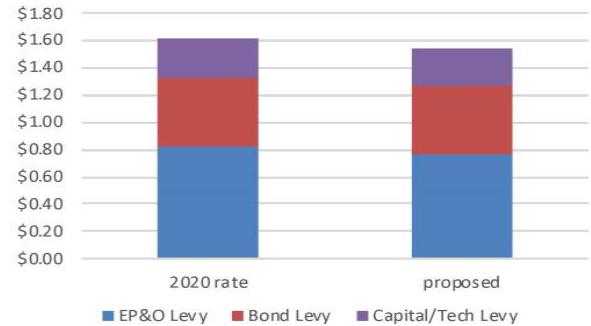

### PLEASE VOTE by April 27th

**We are so proud of our students, staff and families! Their ability to adjust to the significant challenges imposed by the Covid-19 pandemic have been extraordinary!**

- This last year has amplified the need for **ALL** students and staff to have access to the tools needed in order to successfully participate in the new norms of public education.
- Our district prioritizes and supports the technology that a 21st century education demands.
- We also recognize that the replacement cycle for our existing technology is now accelerated due to the pandemic.
- As a district, we are committed to the investment in and maintenance of the instruments of our progress:
  - Essential upgrades to our technology infrastructure
  - Hardware (such as laptops)
  - Relevant software

The Technology and Capital Projects Levy on the April 27th ballot will replace a previously expired levy. Passage of this levy will provide the funding for these important upgrades and improvements.
